Intelligence.

[From the N. Y. Herald of the 12th inst.]

The news which is contained in the journals now eccived is highly important in a political sease, and also both in a religious and mercantile point of

view.

A meeting of the members of the church of England took place on July 20, at the Diocesan Grammar School-room, Collingwood, Melbourne, to receive the report of a preliminary committee appointed to draw up the outline of a plan for the establishment of a grammar school and college, in accordance with the principles of the church of England.

England.

The Lord Bishop of Melbourne presided. He said, that the meeting had been convened in conformity with the resolutions agreed to at that which appointed the preliminary committee, to prepare the outline of a plan for the establishment of a grammer school and college, to be affiliated with the university, in accordance with the principles of the church of England. His lordship then called upon the speaker of the legislative rouncil to read the report of the committee, which was accordingly read.

The report stated the proposed objects of the institution to be to provide religious education in

The report stated the proposed objects of the in-stitution to be to provide religious education in accordance with the principles of the church of England, and to afford such instruction in all branches of learning and science as might fit the students either for business or for the more ad-vanced studies of the university.

First. To give students a sound religious educa-tion, according to the principles of the church of England, and exercise over them a strict moral discipline.

The English colonial secretary announces, in the Gazette of the 20th July, that, to prevent the de-Gazette of the 20th July, that, to prevent the de-struction of the growing timber on crown lands bordering on the Port Philip Buy, his excellency the lieutenant-governor has been pleased to direct the reservation of all timber growing on crown lands in the district of Western Port, within one mile of the beach of the aforesaid bay—within which limit the cutting of timber for firewood, or for any other purpose is strictly prohibited. for any other purpose is strictly prohibited.

A public meeting was held at Castlemaine, on Thursday, the 14th instant, in opposition to the land license tax. The Rev. Mr. Jackson was unanimously called to the chair. He stated to the meeting the object for which they had assembled, namely: to take into consideration the reduction of the license fee to 10s. per month, and also the question of representation.

The petition was then read. It concludes thus: For these reasons and others, which could be enumerated, your petitioners pray your excellency to grant the following petition:

1. To reduce the land license tax to 10s. per month.

2. To direct that a monthly or quarterly licens 2. To direct that a mouthly or quarterly license fee be issued, at the option of the applicant.

3. To direct that a "new arrival" or invalid be allowed fifteen days clear residence on the diggings before such person or persons be proceeded against for non-possession of license.

4. To direct that the penalty of £5 for non-possession of license be reduced to £1.

5. To afford facility to diggers and other residents on the gold fields, who wish to engage in agricultural pursuits, to invest their hard earnings in small allotments of land.

6. To direct that as the diggers and other residents of the colony have uniformly developed a love of "law and order," the sending of an armed force to collect the license tax or impost to be discontinued.

7. To direct that a registration of name at the

Win. Stewart, who died on Tuesday, in the seventy-sixth year of his age.

Of business, and the stocks of the leading articles are by no means heavy. Tea, sugar, and brandy are the exceptions, all of which are in fair demand, at full rates. We have an arrival of Eastern produce by the Swan, from Singapore. She only brings about 35 tons of fine sugar, 700 half chests and 330 boxes of tea, and about 14½ tons of coffee, which are advertised for public sale to-morrow and on the 19th; they are not likely to have much inon the 19th; they are not likely to have much influence on the market. Brandy, the favorite brands are firm at the quotations; the stock is very light. Rum and whiskey remain dull. Gin, in case, in demand and scarce. Geneva dull of sale at low rates. Ale and porter may be quoted a shade lower; but to effect sales to any extent a further reduction would have to be made. With salted salmon, herring, &c., we are well supplied; they are not in great demand. The wheat and flour market is very much depressed; owing to the few transactions entered into it would be difficult to give a correct quotation. Wheat nominally, 6s o give a correct quotation. Wheat nominally, 6s d to 7s per bushel. Flour for shipment, £17 10s to £19 per ton. In dairy produce very little done the demand for shipment has almost ceased. Messrs. Failure of the Allegany.—The United States steamship Allegany returned to the naval anchorage at 1 o'clock, on Saturday, after an absence of three and a half days on her trial trip. We regret to announce that she performed very badly, and that this experimental excursion has resulted in a complete and absolute failure on the part of the steamer. At no time, under the most favorable circumstances of wind and tide, with the application of both steam and sails, could her speed be increased to a faster rate than six miles an hour. tion of both steam and sails, could her speed be increased to a faster rate than six miles an hour. Her machinery worked wretchedly, and, since the trial, is in a most shattered condition. She an-chored at the Horse Shoe, off Old Point, Friday night, and on Saturday took four hours in smooth water to return to our port, a distance of twenty miles.

Since her return to port, it is ascertained that Since her return to port, it is ascertained that her machinery is in a much worse condition than was at first supposed. One of the frames is broken, and, in order to repair it, her engines will have to be taken out. It is thought that it will require at least four months to refit her, should the department think it worth while to make another attempt. In the meantime, her officers will have to be detached, and her men transferred to the receiving ship. Pannaylania. the receiving ship Pennsylvania. The Tehuantepec Transit.—We are gratified at being able to announce that this great enterprise, in which our country has so deep an interest, is now about being realized. Col. Sloo, the grantee from the Mexican government of the right of way for the Tehuantepec road, was in our city a few days ago, and we had from him a confirmation of the report which the telegraph brings us, that he has completed his arrangements for building the road, and will commence the work about the 1st of December. Col. Sloo was here for the purpose of purchasing a steamboat, which is now being adapted for the service in the Coatzacoalcos river, in connection with the work of constructing his road. The plank road across the Isthmus will be finished within a year from the time the work is commenced, and by the end of four years, the railroad trains will traverse the Isthmus, and thus open the great channel through which the commerce of the world will inevitably flow.—Louisville Times. Pilots and Engineers' Meeting.—We dropped in last Saturday night at the hall on Fourth street, to see how the pilots and engineers were progressing. They are still holding out for a salary of \$150 per month. The pilots, we are informed, are demanding \$1,500 per annum, and refuse monthly engagements at \$300. Both branches act harmoniously together.—Cin. Columbian.

Outrageous Assault. Yesterday afternoon a Outrageous Assauft.—Yesterday afternoon a person, whose name we could not ascertain, whilst passing through Fifth street market-house, was violently assaulted by three scoundrels, one of whom struck him in the face and choked him, another taking his umbrella, and the third endeavored to extract his watch from the fob. He succeeded in breaking from them, when they fled. In a few minutes, officers Harding and Stevens came up, and, on learning the particulars, went in search of the men, whom they found in a coffee-house on Fifth street, between Sycamore and Main, having in their possession the umbrella of the assaulted man. The officers conveyed them to the Hammond street station house, where they gave their names as Thomas Brooks, John Fields, and Thos. Aylor. The latter is a well-known scoundrel to the police, and is notorious for his cut-throat propensities and brutal assaults upon inoffensive people. He has been before the police court a number of times for his dastardly and villainous acts, but has always managed to escape with light punishment. We hope, in this case, justice will be meted him to its fullest extent.—Cin. Columbian.

Murder.- A man named Michael Connor was arrested on Saturday night in a coffee house, on the corner of Broadway and Tyler streets, kept by John Kiecker, for murdering a man named John

McMahon.
On Saturday evening, about dark, McMahon On Saturday evening, about dark, McMahon, and several other persons, were in the aforesaid coffee house. The party had been in the house but a few minutes, when McMahon and another man had a disturbance about some trivial matter. Michael Connor, one of the party, urged them to fight and be done with the dispute, but McMahon told him that if he wanted any person to fight to fight himself. Connor then commenced heaping abuse upon him, by calling him harsh names, and at the same time drawing a knife stabbed him. The knife entered his side under his left arm, and ranged downward, entering the cavity of the chest. minutes. Some of the witnesses stated that McMahon had pushed Connor once or twice before he was stabbed by him.—St. Louis Herald.

Bigamy.- A German woman named Magdale Bigamy—A German woman named Magdalena Kooger, about 50 years of age, was arrested on Sunday, and is now in the calaboose awaiting an examination, on charge of bigamy. She was met in the street on Sunday night in company with two men, Richard Kooger and a man named Kelley, each claiming her as his wife. They raised a disturbance, and were all arrested for this offence. During a partial examination yesterday morning, it appears that the woman had three husbands, one of whom she had married in Germany. The case was continued until this morning.—St. Lonis Herald.

A Wild Man.—A man named Williams was stopping at the United States Hotel yesterday, who might justly be styled a "wild man." He eats nothing that is cooked, nor drinks anything but water. His meat, potatoes, and all his vegetables, cabbage, turnips, &c., are raw. He alleges that he has not eaten any cooked food for several years, and that any deviation from his present mode of living would most probably cause his death. He resides in Iowa, and is on his way to Washington to make a purchase of some U. S. Washington to make a purchase of some land.—Cin. Atlas.

Steamer Pawnee Sunk.—The steamer Pay nee sunk on Sunday evening, in twelve feet water, twenty miles above Cairo, and will prove a total loss. She was fully insured, as well as freight bills. No lives lost.

It will be seen by the annexed extract from a letter of General Washington to David Stewart, dated New York, 17th March, 1790, that the idea of such a paper as I propose to make the Globe originated in the mind of the Futher of his Country. He said: HALIFAX. Oct. 13 .- The royal mail steame

THE DAILY GLOBE THE CONGRESSIONAL GLOBE.

THE GLOBE

LIVERPOOL, Oct. 1st.-Cotton had ruled very The Congressional Globe.

In surrendering my interest in the organ of a great political party, I cherished the purpose of continuing the Congressional Globe, and, if possible, in time, to perfect it into a full history of the action of Congress, giving the debates accurately and fully with the proceedings—all stamped with the verity of an official record. From the passage in the letter of General Washington, which I have quoted, it will be perceived that he thought this office might be combined with that of a reguler newspaper; and it is certain that the avidity of the public for news of the less important kind greatly contributes to give wing to the weightier matter which may be called Congressional news.

Having succeeded in my purpose of perfecting the reports of the debates in Congress and giving them the official stamp, I now propose to send them abroad, in connection with the news of the day, in such haste as shall outstrip full and accurate intelligence sent from the seat of Government in any other form whatever. It will even anticipate the scraps of news forwarded to cities within two hundred and fifty miles of Washington by telegraph. Before the events thus transmitted are published in the morning papers, (for instance, of the city of New York,) the Globe containing them will have reached the post office of that city by the Express Mail of the previous night. The process LIVERPOOL. Oct. 1st.—Cotton had ruled very duff, and holders were pressing sales. Prices had further declined \(\frac{1}{2}\)d \(\frac{1}{6}\)d \(\frac{1}{6}\)d per fb. The sales of the week were 34,000 bales, of which speculators took 3,000 and exporters 5,000 bales—Fair Orleans 6\(\frac{1}{6}\)d; middling 5\(\frac{1}{2}\)d; fair upland 6\(\frac{1}{2}\)d; middling 5\(\frac{1}{2}\)d. Flour had largely advanced, and was still tending upwards. Sales of western canal at 1s. 6d. advance, and Ohio at an advance of 2s. per bbl. Corn had largely advanced. Sales of white at 42s, per quarter. Wheat had also advanced, and was still tending upwards. 42s. per quarter. Wheat had also advanced, and was still tending upwards.

Consols had declined to 93½ @ 93½. The bank had raised the rate of interest to 5 per cent.

CINCINNATI, Oct. 13.—The democrats have, be-yond doubt, carried this State by a very large majority. There is no report of the vote upon the liquor law. The democratic majorities are in Montgomery 200, Erie 300, Sandusky 200, and Ottowa 200. The freesoilers carry Cuyahoga, and have 600 majority in Lorain. Philadelphia, Oct. 13.—Foulkrad (dem) is elected senator in the county by only 7 majority.

Seven prohibitionists and four democrats are elected to the house.

The whigs have elected their attorney, treasurer surveyor, and auditor; and the democrats the marshal, prothonotary, and county commissioners will have reached the post office of that city by the Express Mail of the previous night. The process by which this will be effected I now lay before the

I will have a corps of sixteen Reporters in Con-I will have a corps of sixteen Reporters in Congress; each in succession will take notes during five minutes, then retire, prepare them for the Press, put them slip by slip in the hands of compositors, and thus, while a debate is going on in Congress, it will be put in type, and in a few minutes after it is ended it will be in print. I shall, by this means, be enabled to send by the Express Mail of 5 o'clock p. m. for the East, West, and North, and by that of 9 o'clock p. m. for the South, all the proceedings of Congress up to the ordinary hour of adjournment. Thus the accurate debates of Congress will reach the cities two hundred and fifty miles from the Capitol before their daily morning papers are in circulation. Boston, Oct. 13.—Mt. In the towns around the mountain the snow has been falling for several days. The thermometer at the mountain stood last week at zero.

ing papers are in circulation.

The miscellaneous news I shall be careful to gather from remote sections of the country by tele-graph. I will obtain from the Executive Depart-ments, through official sources, the matters of moment transacted in them, and through agents employed for the purpose, all the city news of consequence in sufficient time to be put into the Globe and mailed in the Express Mail trains. In this way I hope to create a new era in the dissemina

and mailed in the Express Mail trains. In this way I hope to create a new era in the dissemination of news from Washington. Hitherto no newspaper has attempted to give authentic accounts of things done at Washington before the public mind at a distance had received its first impressions from irresponsible telegraphic dispatches, or by letter-writers biased by peculiar views.

Washington has now become so great a centre of political interest during all the year—the proceedings of the Executive Departments and the information collected by them even during the recess of Congress is of so much importance to the interests of every section of the country—that I shall continue the publication of the daily paper permanently, with a view to become the vehicle of the earliest and most correct intelligence,

It is part of my plan to reduce the price of the daily paper to half that of similar daily papers; and thus I hope to extend its circulation so as to invite advertisements. I will publish advertisements of the Government. To subscribers in the cities I hope to submit such terms as will induce them to

ione to submit such terms as will induce them t advertise their business in every village through out the Union, where the Globe is sent daily unde the franks of members of Congress, all of whom take it, and some of them a large number of copies. The installation of a new Administration and a The installation of a new Administration and a new Congress portends much change in the course of public affairs as the result of the next session. Many vast interests which were brought up in the last Congress were laid over by the Democratic Executive. The new modeling of the tariff; the new land system; the question of giving homesteads, and making every man a freeholder who may always to become one the approximation of the choose to become one; the approximation of the Atlantic and Pacific oceans by a national railroad across the territory of the Union; reform in the Army, Navy, and civil offices—all these great questions, with a thousand minor ones, deeply affecting multitudes of men and every State in the Union mulitudes of men and every State in the Union, will, now being matured by public opinion, come up for the Government's decision. These new issues, cooperating with old ones, coming up to be disposed of by new actors on the scenes at Washington, will be apt to modify greatly, if not alter essentially the party organizations of the country. To these elements of interest another is likely to be interesting the state of the country.

to be introduced by the interposition of the agita-tions of Europe. After nearly forty years of peace in Europe there is an evident restlessness that now seems fraught with tendencies threatening war; and if war comes, in all likelihood there will follow such universal change that the United State can scarcely hope to escape its vortex. Indeed from late events it is apparent that our government is already drawn into European difficulties. These circumstances are calculated to draw the public mind towards the next Congress with much ex

The Daily Globe will be printed on fine paper double royal size, with small type, (brevier and nonpareil,) at five dollars a year.

The Congressional Glore will also be printed on a double royal sheet, in book form, royal on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The Congressional Globe proper will be made up of the proceedings of Congress and the running debates as given by the Reporters. The speeches which members may choose to write out themselves will, together with the messages of the President of the United States, the reports of the Executive Departments, and the laws passed by Congress, be added in an Appendix. Formerly I received subscriptions for the Congressional Globe and Appendix separately. But this has not been found satisfactory, inasmuch as it gave an incomplete view of the transactions in Congress; and therefore I have concluded not to sell gress; and therefore I have concluded not to sell them apart, considering that neighbors can have the advantage of both by clubbing, in case individuals shall find it too onerous to be at the charge of

To facilitate the circulation of the Congress ional Globe, and cheapen it to subscribers, Congress passed last year a joint resolution making if free of postage. I annex it, as the law may not be accessible to postmasters generally:

Joint Resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap eleculation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it resolved by the Senate and Howe of Representatives of the United States of America in Congress assembled, That from and after the present session of Congress, the Congressian Globe and Appendix, which contains the laws and the debates thereon, shall pass free through the mails to long as the same shall be published by order of Congress: Provided, That nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage. stage. Approved, August 6, 1852.

As I sell the DAILY GLOBE at half the price of similar publications, so the Congressional Glore and Appendix is sold for half the cost of so much and APPENDIX is sold for half the cost of so much composition, press-work, and paper. This I can afford to do, inasmuch as the subscription of Congress almost covers the cost of composition, and this enables me to sell for little more than the cost of press-work and paper. It requires the sale of about 9,000 copies to reimburse expenses. If 500 only were sold, the cost of each copy would be about \$1041. If subscribers will be careful to file all the numbers received by them, I will supply any that may miscarry in the mails. This work increases in value as it grows old.
